

# WX802

The WX802 is the largest speaker of the WX family, fitted with an 1" dome tweeter and a 8" low frequency loudspeaker. It delivers a power of 70W in standard 16 Ohm systems, but can also be used in 100V PA systems. The 100V line transformer has tapings for 60W, 30W and 15W. This speaker is available in three colours: White, Black and Silver.

Horizontal coverage: 100°  
Vertical Coverage: 100°

**100 VOLT** **16 OHM**

### Technical Highlights

	Max Power	RMS Power	Max SPL	Sensitivity 1W / 1m	Power Taps / Impedance	Frequency Response ±3 dB	Frequency Range -10 dB	Dimensions (W x H x D)	Weight
